Pick34 Special Users Group

The online **Crunch - NB** (New Beginning) is based on the first ever reduction tool available for sale more than 15 years ago as the Crunch 3. At that time it was limited to just a few filters and only to Pick 3 lotteries.

This new approach allows the use of many filters (updated on an ongoing basis) and is available currently for both Pick 3 and Pick 4. One of the key ingredients of the Original Crunch is still part of the tool, the Priority Output that divides the output into selections based on the occurrences of each number.

The Crunch - NB screen consists of 4 sections:

- **SESSION AREA**
- **NUMBER INPUT**
- **FILTER AREA**
- **SORT & OUTPUT**

SESSION AREA

SESSION AREA

Load previous Session ▼

CNB3 - Online Session [2017-12-11 14:22:49]

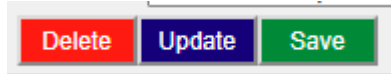

Pick 3 Reduction System - Version B-1001

The **Crunch - NB** allows you to maintain up to **25 Sessions** that you can load from the selection on the top of the Session Area.

Below the selection you find the **Title** (that you can update) as well as the **description line**. Those can be edited to allow you to identify a certain session for later use.

The date and time stamp relates to the start of the session.

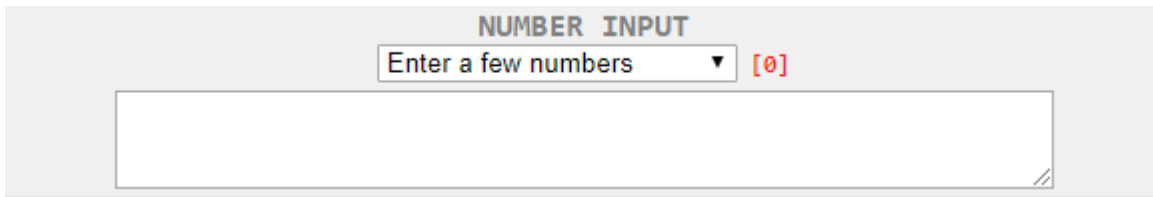

On the bottom left of the screen you will find the following buttons

- **Save:** saves the current session
- **Update:** exchanges the previously loaded session with the current one
- **Delete:** deletes the previously loaded session

Pick34 Special Users Group

NUMBER INPUT

The screenshot shows a light gray rectangular area. At the top center, the text 'NUMBER INPUT' is displayed in a blue, sans-serif font. Below this, there is a dropdown menu with a white background and a black border. The menu is open, showing the text 'Enter a few numbers' in black. To the right of the dropdown is a red square containing a white '0'. Below the dropdown and the red square is a large, empty white rectangular text input field with a thin gray border. A small cursor icon is visible in the bottom right corner of the input field.

This area allows you to enter or select the numbers you want to start out with. Depending on the version (Pick3 or Pick 4) you have the following choices:

- **Load All Straight Numbers**
- **Load All Boxed Numbers**
- **Enter my own numbers**
- **Enter a few numbers**
- **Enter lots of numbers**

Load All Straight Numbers ...

... starts out with all 1000 numbers in Pick 3, or 10000 numbers in Pick4 respectively.

Load All Boxed Numbers ...

... starts out with all 220 boxed numbers in Pick 3, or 715 boxed numbers in Pick4 respectively.

The options "Enter my own numbers, a few numbers, lots of numbers" ...

... allow you to enter your own list of numbers. The 3 choices simply differ by the size of the entry fields.

FILTER AREA

FILTER AREA		
1.	<input type="text" value="Choose Filter"/>	<input checked="" type="checkbox"/>
2.	<input type="text" value="Choose Filter"/>	<input checked="" type="checkbox"/>
3.	<input type="text" value="Choose Filter"/>	<input checked="" type="checkbox"/>
4.	<input type="text" value="Choose Filter"/>	<input checked="" type="checkbox"/>
...	<input type="text" value="Choose Filter"/>	<input checked="" type="checkbox"/>

The Filter area - currently consisting of 12 filter selections - allows you to select the filters and to enter the filter options for your number reduction.

1.	<input type="text" value="Choose Filter"/>	<input checked="" type="checkbox"/>
----	--	-------------------------------------

The green button indicates that you are using the filter inclusive, meaning you are selecting only numbers that have the selected filter.

1.	<input type="text" value="Choose Filter"/>	<input type="checkbox"/>
----	--	--------------------------

If you click on the green button you are switching the filter to exclusive, meaning the you selecting only numbers that do NOT have the selected filter.

You can choose from a large variety of filters (updates are ongoing) here the list of filters as of Dec. 11, 2017.

For more information in regards to filters and filter options in general refer to the information on the

Pick34 Special Users Group

Pick34.com web site.

SORT & OUTPUT

The screenshot shows a control panel titled "SORT & OUTPUT". At the top, there is a dropdown menu labeled "Select Sort (optional)". Below it is another dropdown menu labeled "Standard Output". At the bottom, there are five buttons: "Delete" (red), "Update" (blue), "Save" (green), "Reset" (red), and "Crunch" (green).

The bottom area on the screen refers to the sort options for the results and the way the data should be shown on the screen.

Both the Pick 3 and the Pick 4 version use the same Sort and Compress choices that are optional as you do not need to sort the data:

- **Sort Only**
- **Sort Ascending**
- **Sort Descending**

Compress Only

- **Compress w/o Sort**
- **Compress Boxed w/o Sort**

Compress and Sort

- **Compress and Sort Ascending**
- **Compress and Sort Descending**

Compress Boxed and Sort

- **Compress Boxed and Sort Ascending**
- **Compress Boxed and Sort Descending**

"**Compress**" refers to the elimination of multiple occurrences of the same numbers.

"**Compress Boxed**" refers to the elimination of multiple occurrences of the same boxed numbers.

Pick34 Special Users Group

The final selection of the page is used to choose the output option.

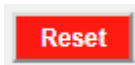

Pick 3

- **Standard Output** (All numbers in one section)
- **Output by Types** (Separated by Singles, Doubles and Triples)
- **Output by Clean & Dirty** (Clean and Dirty Numbers separated)
- **Output by Priority** (Numbers Separated by Occurrences)
- **Output by Priority Boxed** (Numbers Separated by boxed Occurrences)
- **Test Run** (Step by Step Reduction Run through)
- **Test Run with Number Entry** (Step by Step Reduction Run through with Numbers Selection)

Pick 4

- **Standard Output** (All numbers in one section)
- **Output by Main Types** (Separated by Singles, Doubles and Others)
- **Output by All Types** (Separated by Singles, Doubles, Double-Doubles, Triples and Quads)
- **Output by Clean & Dirty** (Clean and Dirty Numbers separated)
- **Output by Priority** (Numbers Separated by Occurrences)
- **Output by Priority Boxed** (Numbers Separated by boxed Occurrences)
- **Test Run** (Step by Step Reduction Run through)
- **Test Run with Number Entry** (Step by Step Reduction Run through with Numbers Selection)

Reset Button

... clears out all of the current Info settings, from Session Text, over Number Input and Filters up to the Sort and Output selection.

Crunch Button

... starts the Reduction process and shows the output based on the Output selection.
